

BLACKJACK: OPTIONAL SIDE BETS

TRILUX BONUS

Game Basics

TriLux Bonus is an exciting optional side bet for blackjack that considers the first two cards a player receives and the dealer's up card. If the cards make a straight, flush, three of a kind or a straight flush, the player wins. The value of the player's hand is independent of the dealer's hand and is unaffected by the dealer's blackjack.

PLAYING THE GAME

1. To begin each round, players make their standard blackjack wagers and the TriLux wager.
2. The dealer then follows house procedures for blackjack.
3. Once players and the dealer have two cards, the dealer settles all TriLux wagers according to house procedures. If players have a winning hand combined from the player's first two cards and the dealer's up card, they win according to the pay table. If their hand is not a winning hand, players lose their TriLux wager.

Note: If a player has more than one winning TriLux combination on a single hand, only the highest ranking hand according to the pay table shall be paid.

Note: All bonus payouts apply to the player's first two cards only.

LUCKY GEORGE

Is a payout that goes to the dealer token pool. When a player wins a corresponding TriLux wager, the dealer will get a payout as well.
